## ROMANCE IN DESERTION.

YOUNG U. S. ENGINEER CORPS  
MAN DISAPPOINTED IN  
LOVE AND SUR-  
RENDERS.

Nashville, June 17.—Ed Wheeler, a deserter from the United States engineering corps at Fort Totten, N. Y., today gave himself up and will probably be taken to Fort Thomas, Ky.

Wheeler, who is 21, fell in love with Miss Belle Kendrick of Jordan Springs, Tenn., while she was visiting friends near the barracks at Totten, and soon after she returned home he says he made up his mind to follow her and try to get her to marry him. He deserted and went through all sorts of hardships in order to reach Jordan Springs, walking much of the way, but when he got there the girl's father would not listen to his suit, he became despondent, resolved to give himself up, came to Nashville and surrendered to the recruiting station.

## MANY MASONS.

DELEGATIONS FROM THE COUN-  
TY TO JOIN LOCAL DELE-  
GATION.

Mr. Charles Earhart this morning received a letter from the Bandana Masons saying that a large delegation would come from that section to go to the ceremonies at Mayfield Thursday.

All arrangements have been made and the special train will leave Eleventh and Broadway at 6:45, stopping at the yard office only. It will not make a stop at the union depot and all passengers who cannot go to Eleventh and Broadway will wait at the latter place.

From present indications this will be one of the biggest excursions ever run out of Paducah by any order and over two hundred have already expressed their intentions of going.

## VENEZUELAN REVOLUTION.

MOST FORMIDABLE OF ANY  
THAT HAS ARISEN TO  
HARASS PRESIDENT  
CASTRO.

Washington, June 17.—In well informed diplomatic quarters here the impression prevails that the revolution which is at present threatening President Castro of Venezuela is perhaps the most formidable of any that has arisen there during the past few years. Nevertheless, as long as the revolutionists can be confined in their movements to outlying towns and be kept away from the central points of administration, such as Caracas or the city of Valencia, it is thought here that there is no possibility of final success for the opponents of the Castro administration. If the revolutionists fail in their purpose this time it is thought the accomplishment of their aim can be relegated to a rather distant future.

## HEWN LIMB FROM LIMB.

BODIES OF SEVEN AMERICAN  
SOLDIERS CAPTURED TWO  
WEEKS AGO.

Manila, June 17.—The bodies of the sergeant, two corporals and four privates of the Fifth cavalry, who were captured May 30 by Ladrones at Binangonan, Rizal province, this island, have been recovered. Most of the bodies had been hewn limb from limb, and it was found impossible to recognize four of the dead men. A number of arrests in the matter have been made, and nine men have been absolutely identified as belonging to the band of Ladrones which captured the Americans. The identified men include two members of the police force of Tera, Morong province. The American soldiers were buried today together. It was impossible to make separate interments.

## THE KING IMPROVED.

London, June 17.—King Edward, who is suffering from lumbago, is much improved but was unable to attend the Ascott races.

## WITH THE THEATRES.

A high class comedy, "Married for Money," which is entirely devoid of horse play, but nevertheless is an un-interrupted flow of irresistible humor, convulsed with laughter a fair sized audience at La Belle Park theatre last night. The specialties were received with great applause. The fine orchestra music furnished at this place is as strong an attraction this week as in the past. "Married for Money" and the incidental vaudeville and musical features hold over for tonight and tomorrow night.

Mr. Frank Johnson has accepted the position of stage manager of The Kentucky, succeeding Mr. Wm. Malone, who creditably held the position since the house was opened.

## DEATH AT VERSAILLES.

Versailles, June 17.—James Garrett, a prominent citizen and sportsman, died here today from paralysis, aged 72.

## Petrified Forest in Tripoli.

The great desert in the forbidden hinterland of Tripoli, northern Africa, which has not been visited by Europeans for fifty years, has now been explored by Mr. Edward Dodson, a young Englishman, who went out last March. The members of the expedition experienced much difficulty with the authorities; at one place they were put under arrest, and on two occasions threatened by Arabs, who prepared to ambush them, says the London Mail. One of the most notable things on the journey to Murzuk was the great petrified forest. For ten days they traveled across an area of petrified trees varying in circumference from seven feet to a few inches. Every branch of this forest was, of course, lying prone, and this, together with the presence of marine shells, showed that this part of the great Sahara had at one time been submerged. One night they were surrounded by thunder storms. No less than five distinct storms were in progress all around, and the guns and spears of the party became surrounded by a halo of phosphorescent light, which greatly alarmed the superstitious attendants, who regarded this as a fourth judgment upon them for traveling with "unbelievers."
